Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Sunday 10 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Becoming milder, with outbreaks of rain at times.

Today:
A cloudy start, with outbreaks of rain during the morning. Rain becoming patchy and lighter through the day and remaining cloudy. Driest in the south of the region. Slightly milder. Maximum temperature 7 deg C (45 deg F).

Tonight:
During the evening it will remain cloudy with outbreaks of rain in the north. Occasional clearer spells overnight before cloud thickens by dawn. A milder night with strengthening winds. Minimum temperature 1 deg C (34 deg F).

Monday:
A wet day across the region with outbreaks of rain, heavy at times. Rather windy with coastal gales. Mild to start but turning cold and frosty overnight. Maximum temperature 8 deg C (46 deg F).

Outlook for Tuesday to Thursday:
Colder on Tuesday with spells of sunshine. Outbreaks of rain heavy at times on Wednesday and briefly milder. Sunny spells and scattered showers on Thursday and colder.
